INDEX

IEE Review Volume 46
January-November 2000

Subject index

Communications

Improved satellite comms for UK armed forces January, p4
BT announces UK Internet expansion plan January, p5
ntl fits the Bill January, p6
Malaysia's cybernation vision January, p7
broadband@home.com, by R. Dettmer January, p13
Up to the mark, by M. Brookes January, p29
An opportunity lost, by N. Long January, p33
The problems of success, by H. Meier January, p38
Data highway to the stars, by B. Smith March, 15
Rain, rain - come again? May, p2
Nation's airwaves auctioned May, p8
Dolphin spotted on Dartmoor July, p2
Never feel stupid for asking July, p6
New website for low power radio July, p7
Realising the broadband future, by W. Webb July, p19

Computing and control

QNX starts to open May, p8
Click and code, by D. Maclay May, p25
Adapting Java for embedded development, by V. Perrier May, p29
State of play, by G. Wood July p26
Self-validation in process control, by R. Dettmer July, p29
A fieldbus for machine safety, by R. Piggin July, p33
Software to silicon, by R. Dettmer September, p15

Electronics

Imagine Graphics takes off at London Luton Airport January, p2
Swiss expertise comes to London January, p7
Three of a kind, by S Karve March, p27
Smart-Electrics set to transform home security May, p2
Powering up, by J. Neubert September, p21
Pixel power to the people, by R. Dettmer November, p18
Plugging the global power leak, by D. Giannopoulos, S. Mukherjee and I. Wacyk November, p23
Happy medium, by C. Christopoulos and J. Dawson November, p29
EMC and functional safety, by K. Armstrong November, p34

Energy and the environment

Hydro power plants in India January, p2
Magnetic field exposure not a factor in cancer, study finds January, p2
Stop that current January, p3
Partners in power January, p4
Cogen's success at Esso Fawley March p6
Efficient Otahuhu March, p6
New era for HVDC?, by B. Anderson and C. Barker March, p33
What a waste May, p4
The making of the European energy network, by J. Tapper May, p9
Wind of change, by R. Dettmer May, p21
Alstom supplies 9 MW drive July, p2
Powerful protection for new warship July, p2
Electricity and nature clean up July, p4
ABB completes £7 million contract at Salford Quays July, p6
High and dry, by T. Andersson and M. Leijon July, p9
EU electrical waste law a step nearer September, p2

Management and education

Y2K recruitment campaign January, p5
First Ufi learning centres open January, p7
Can you move the world? March, p2
Listed building makes the grade March, p2
Project management congress March, p2
Young Foresight seeks to create tomorrow's entrepreneurs March, p4
Global technology update goes on-line March, p6
Time to apply for RAEng fellowships March, p6
Pure and applied, by R. Dettmer March p21
50th birthday for fast-track PhD programme July, p4
PGCE in Design and Technology July, p4
Wellcome to the future Sept, p4
The black art of project management, by G. Smith September, p39
Networking for project success, by K. Davey September, p45
Something old, something new and something just in time: dilemmas for EE education and training, by J. Midwinter November, p11

Manufacturing and design

Components industry forecasts solid growth January, p6
Top factories named January, p6
Call to arms for UK IT industry March, p2
Consulting engineers' UK workload continues to rise July, p7
Waste as raw material in automotive manufacture July, p7
Fewer world-class UK manufacturers September, p8
Quirky keyboard, by K. Parker September, p6

New technology

Mondex for Mexico January, p3
Era of electronic signatures dawns January, p4
Joint effort, by M. Cecil-Wright March, p40
LINK to invest in optical Internet technologies July, p6
Smaller, better, faster electro-ceramics July, p6
Photons and petabits, by R. Dettmer July, p16
New generation warships September, p8
The intelligent hand, by P. Kyberd September, p31

Politics, social impact and history

Website for disability legislation January, p6
Morals for robots and cyborgs Jan, p7
Is there a forensic scientist in the house?, by R. Gaitskell January, p19
Fit for life, by K. Parker January, p23
Minister backs Hawley Group's Stage 1 report March, p6
Operation PC reaches into your attic May, p4
Future crime May, p6
Marconi funds Cambridge May, p6
The Greenwich Project May, p8
Asdics at war, by W. Hackmann May, p15
Licence changes to protect disadvantaged customers July, p2
Are engineering employers old fashioned? July, p6
Restoring Baird's image, by D. McLean September, p9

Transport and infrastructure

Clear road ahead?, by A. Carter and T. Carter March, p9
